Technology Architecture:

Project shall full fill the following information in this technology architecture .
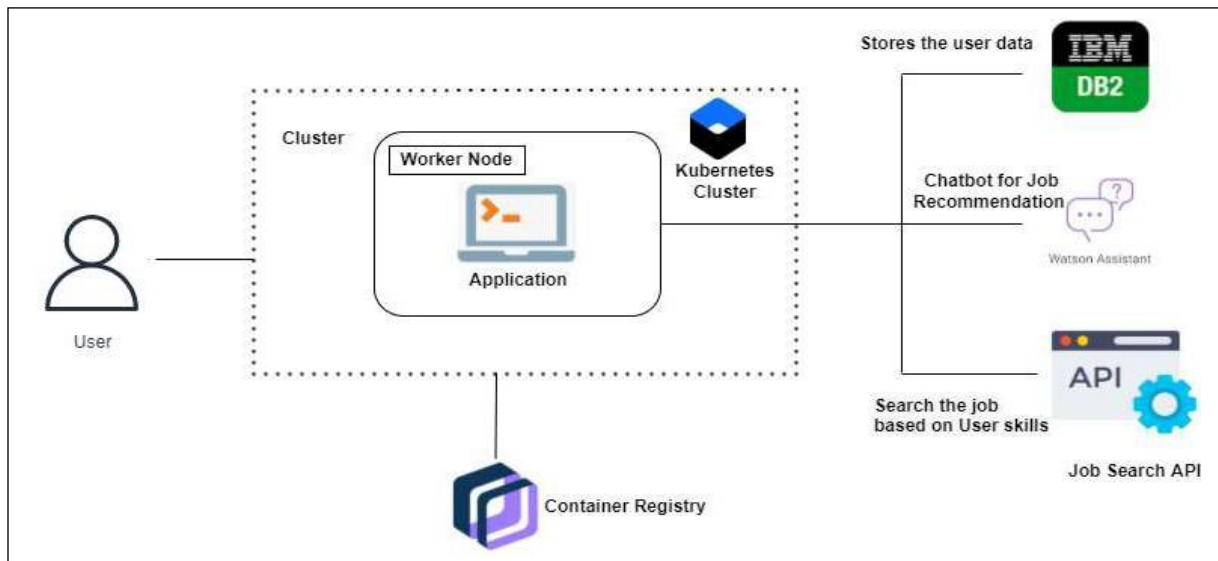

S.No.	Parameter	Description
1.	Is the System Robust ?	Yes it is partially buildable platform as the budget required will be more as cloud is a pay per use model and time taken will be quite .
2.	Is it highly modifiable ?	Yes, the system is modifiable and it can admit to the changes by detecting errors that needs to be fixed and new functionalities. It is highly responsive to the changes .
3.	Is it Scalable ?	Yes the system proposed is highly scalable as it can handle the growing workload where good performance is also needed to work efficiently. Deployment of the platform has been done using various os virtualization platform it will handle the workload statistically.
